U.S. Department of Justice**

And the

**Juvenile Justice Telecommunications Assistance Project
Eastern Kentucky University—Training Resource Center**

In cooperation with the

National School Boards Association

And the

National Center for Missing and Exploited Children

Technical Information Guide

Overview

It has been noticed that during previous videoconferences that some sites will try to receive a broadcast without having a technical person present who understands how to tune in the receiver. These sites often miss the videoconference and experience a high level of frustration.

Eastern Kentucky University (EKU) will only assume responsibility for program transmission. Each receiving site will be responsible for its own reception of the program. Please review page 3 for all relevant technical information.

Reception Issues

This broadcast will be aired on the C-band and Ku-band.

Video Rights

Neither EKU nor OJJDP possess any specific rights to the videoconference broadcast. You are free and encouraged to videotape this event for future use. Written consent does not need to be requested.

Technical Assistance

Prior to the day of the broadcast, you are encouraged to call the EKU office at (606) 622-6671 if you need assistance. **On the broadcast day, any requests for assistance should be directed to 1-800-895-4584.**

Closed Captioning

JJTAP is now offering closed captioning for the hearing impaired for all OJJDP broadcasts. Please consult your technician or the television manual to enable this option. JJTAP will be unable to assist with technical questions regarding the reception of closed captioning at your site.

Online Safety for Children
A Primer for Parents and Teachers
National Satellite Videoconference

	<u>C-BAND COORDINATES</u>
SATELLITE:	Galaxy 3 (95 degrees West Longitude)
TRANSPONDER:	11
CHANNEL:	11
FREQUENCY:	3920 MHz horizontal
AUDIO	6.2/6.8
	<u>Ku-BAND COORDINATES</u>
SATELLITE:	Telstar 5 (97 degrees West Longitude)
TRANSPONDER:	16
CHANNEL:	16
FREQUENCY:	11997.5 MHz horizontal
AUDIO	6.2/6.8

TO TEST SIGNAL: A test signal will be broadcast from 4:00-4:30 PM on the day of the broadcast and again **30** minutes prior to each live broadcast. Technicians should check satellite receive equipment during the test time. If you have problems, call 1-800-895-4584. Please note that this number is reserved for the day of the broadcast only. Questions prior to that time should be directed to (606) 622-6671.

PROGRAM FORMAT: The broadcast agenda is listed on the following page. There will be two call-in segments during the program. Participants can interact with the studio panelists by calling 1-800-895-4584 when the moderator requests calls to be placed. We have found in the past that the number of questions far exceeds the amount of scheduled broadcast time.
